

**Typical analysis :**

| <b>NLGI</b>           | <b>EP 992 2</b> |
|-----------------------|-----------------|
| • Colour              | : dark          |
| • Soap type           | : al-complex    |
| • Dropping point      | : 260°C         |
| • Penetration at 25°C |                 |
| 60 strokes            | : 280           |
| • 10.000 strokes      | : 290           |
| • Application range   | : – 25/ +170°C  |
| • Timken Load         | : 45 lb.        |

**Ep properties**

- 4 ball weld load : 260 kg

**Base oil specifications**

- viscosity at 40°C : 220 cSt
- viscosity at 100°C : 19 cSt
