

Swimming protocol in Corona time

Version July 3, 2020

Swimming provides fun, safety and fitness. Holiday Park De Pier wants to offer all its guests the opportunity to use our outdoor pools.

Parties in the swimming pool sector have drawn up the Responsible Swimming Protocol with measures to ensure that we can open safely. Our protocol is a further elaboration of these measures.

In the interest of the public health of swimmers, pool staff and visitors, we ask that the following measures be observed.

Employees, swimmers and visitors adhere to the guidelines of the RIVM:

- Stay at home if you have any of the following (also mild!) Symptoms: cold, runny nose, sneezing, sore throat, cough, chest tightness or fever;
- Stay at home if someone in your household has a fever (from 38 ° C) and / or shortness of breath until everyone has fully recovered (Advice is not to swim for up to two weeks after the symptoms disappear);
- Persons with underlying suffering are advised not to swim during the corona crisis;
- Keep 1.5 meters away from any other person outside your household (except for children up to and including 12 years of age);
- Cough and sneeze in your elbow and use paper tissues (Within a swimming pool, it is not always possible to use paper tissues. In that case, clean hands and arms immediately after coughing or sneezing with the available disinfectants);
- Before you leave home, go to the toilet at home;
- Put on your swimwear in your accommodation;
- Wash your hands with soap or disinfectant for at least 20 seconds before visiting the pool;
- Shower every time at the outdoor shower when you enter the water;
- Wash hands with soap or disinfectant if your hands may be contaminated:
 - after touching objects where many people are seated (door knobs, pin devices, remote control, etc.);
 - after a toilet visit;
 - after coughing, sneezing in the hands;
 - after blowing the nose;
- Avoid touching your face;
- Do not shake hands;

- Use of (play and float) materials are not permitted. Only children without a diploma are allowed to use floating materials. As a parent you are responsible for disinfecting this before each use of the children's pool;
- Limit the use of materials as much as possible to 1 person;
- Use your common sense.

Register

To prevent it from getting too busy in the pool, we work with "swimming blocks". A swimming block lasts 1 hour; 9:00 AM to 10:00 AM (this time slot is only for seniors aged 60+), 10:00 AM to 12:00 PM, etc. Within the pool, 45 minutes are reserved for swimming (9:00 AM to 9:45 AM) and 15 minutes for the change of swimmers (9:45 AM to 10:00 AM). Employees use this time to clean objects.

A maximum of 30 swimmers are admitted to the pool in a swimming block. We use a reservation system that prevents more people than allowed. Swimmers reserve a swimming block on arrival.

- The use of the swimming pools by visitors, such as family and friends, is not possible and is ONLY for guests staying at Vakantiepark De Pier. Swimmers without a label are not allowed;
- The reservation is made with a personal label (to be picked up at the reception). Each family member has its own label with first and last name;
- The use of the swimming pools by visitors such as family and friends is not possible and is ONLY for guests staying at Vakantiepark De Pier. Swimmers without a label are not allowed;
- There is a sign with brackets at the pool. It lists the swimming blocks and there are 30 brackets per swimming block. On arrival, or possibly earlier, you can hang your label in the swimming block in which you want to swim. Are all brackets taken? Unfortunately the maximum has then been reached of the number of swimmers we can allow in the pool. You can of course already hang your hook for another swim block that day.
- As soon as a swimming block expires, your label must be removed and, if there is space, it can be hung again for the next swimming block. Is there no hook for the connecting swim block? Then take your things with you and go to your accommodation;

- Remember that the number of swimming blocks is limited. If you've put up your label earlier in the day, come too! When you leave, take your label with you. That way everyone can use the swimming pool;
- Only you may hang / remove your own label. In addition, the employees of Vakantiepark De Pier are authorized to make changes.

On the pool platform

- One of the employees is the "corona responsible". This employee supervises compliance with the provisions of this protocol;
- The person responsible for corona may determine (whether or not in consultation with local authorities) to deny (groups of) persons access to the swimming pool;
- At De Huyskamer, located next to the entrance of the swimming pool, there is disinfectant. Swimmers are made aware of this and asked to disinfect their hands before entering;
- In the swimming pool and on the platform, everyone must be able to keep 1.5 meters away from each other;
- The number of persons present for the entire swimming pool is limited as much as possible to a maximum of 30;
- Showers and changing rooms are closed. These are not used;
- Toilet facilities are only used in extreme emergency and cleaned by the swimmer after use.

In the swimming pool

Holiday park De Pier has two pools, the children's pool and the deep.

The children's pool

The children's pool is only intended for children up to the age of 8 to play. Parents continue to supervise from the side. They keep 1.5 meters distance from each other. Parents of children who cannot enter the water alone are allowed in the water, but observe the 1.5 meter distance.

The deep

In the deep end there is room for adults, children and youth up to and including 18 years to play freely. Children under 8 years old with the required swimming certificates can also use this part.

Swimmers must keep a distance of 1.5 meters and overtaking is not allowed.

Lap swimming

- Consider 1-way traffic per lane (one lane back, another lane back);
- Swimmers must keep a distance from each other and overtaking is not allowed.

Recreational swimming

- No adults may be present in the water in the children's pool. They supervise from the edge of the pool with the 1.5 meter rule in relation to other people present. Parents are allowed in the water for children who cannot enter the water alone, but observe the 1.5 meters distance .;
- Toilet facilities are only used in extreme emergency and cleaned by the swimmer after use;
- It is always ensured that a distance of 1.5 meters is guaranteed in relation to the employees present;

Finally

Health comes first. We therefore adhere to the rules that apply. We expect the same from our guests. Within the rules, we try to create the safest possible situation for everyone to use our swimming pools in the coming period. We realize that this is not optimal, but we rely on everyone's understanding and that every guest takes his / her responsibility for himself. Only then can we and you continue to use the pool.

Anyone who does not comply with the rules will be immediately requested by our employees to leave the pool and will not be welcome in our pools for a period of 14 days.

The measures in this protocol apply until at least the year 2020. We therefore reserve the right to amend this protocol on the basis of changed regulations / measures and new insights.

Thank you very much and have fun swimming!

Rems, Nikki & Peppe

And all employees of Holiday Park De Pier
