

Navajos

Description Self-mixing 2 stroke engine oil based on synthetic esters and the latest additive technologies.
Useable at racing conditions, with constant varying and continuously high speeds and/or loads.

Application In virtually all 2 stroke motorcycles.
Specifically designed for use in high speed and the more powerful 2 stroke motor bikes, with or without oil injection.
Recommended application ratio, 1 or 2 parts of lubricant with 50 parts of gasoline (consult the prescription of the OEM to know the exact application ratio).

Specifications* - JASO FC
- ISO GD
- PIAGGIO HEXAGON

Properties - prevents clogging of the sparkplugs.
- excellent self-mixing properties in all kind of gasoline.
- low smoke and odour.
- maximum protection against wear and corrosion.
- perfect lubrication at all possible working temperatures and conditions.

Typical analysis :

- density at 15 °C :	0.867	- viscosity at 40°C :	54
- viscosity at 100°C :	8.4 cSt	- flash point :	101°C
- pour point :	-48°C	- T.B.N. :	2.5 mg KOH/g
- colour :	3.0
