

Otomi GL-5

SAE 75W90

- Description** Semi-synthetic hypoid gear oil to be used in heavy loaded transmissions and when there are strong changing temperatures.
- Application** Lubrication of heavy charged gear hypoid transmission systems working under very low temperatures and requiring special anti-wear protection.
- Specifications*** - API GL-5
- MIL-L-2105 D
- Properties**
- Excellent low temperature properties.
 - Easy starting at low temperatures.
 - Very stable lubrication film.
 - Good protection against rust and oxidation.
 - Excellent protection against wear under heavy working conditions.

Typical analysis :

<u>SAE</u>	<u>75W90</u>
- density at 15°C :	0.889
- viscosity at 40°C :	98.0
- viscosity at 100°C :	16.6
- viscosity index :	196
- flash point °C :	175
- pour point °C :	-45
- colour :	L 4.0
